

One of the most enjoyable and rewarding services I have today, is XM Radio. The many programmes and information channels offered, make it one of the best bargains available to me. I was so thrilled that I bought an XM Radio for my wife. She also feel in love with it. We both use it at home, in the car and at the office. I sincerely hope that there will be no attempts to force unwanted changes or attempt to limit the services offered.

Thank you,
Charles Miller
